

What Can I Expect Now That I Have Been Prescribed TIGLUTIK?

Your healthcare professional has prescribed you TIGLUTIK[®] (riluzole) oral suspension. TIGLUTIK is a prescription medicine for the treatment of amyotrophic lateral sclerosis (ALS). This medication is a mildly thick oral suspension and has been specifically formulated for people with ALS.

To help make the TIGLUTIK prescribing process as easy as possible, TIGLUTIK is only available through Anovo Specialty Pharmacy. They will work with your doctor's office to help with your insurance company. If there are ever any questions, you are encouraged to call Anovo at [\(844\) 763-1198](tel:8447631198) – they are there to help.

Anovo will call you or your caregiver to confirm your shipment of TIGLUTIK to your home once all of the insurance paperwork is completed.

The Caller ID will be AnovoRx Group: (901) 201-5470

Indication

TIGLUTIK[®] (riluzole) is a prescription medicine for the treatment of amyotrophic lateral sclerosis (ALS).

Important Safety Information

- You should not take TIGLUTIK if you are allergic to any of its ingredients.
- TIGLUTIK can cause liver injury, including death. Your doctor should do blood tests to check your liver function before and during your treatment and may stop treatment with TIGLUTIK if liver function is not normal. Contact your doctor immediately if you have unexplained nausea, vomiting, abdominal pain, fatigue, anorexia, or jaundice and/or dark urine.
- Call your doctor immediately if you have a fever, cough, or difficulty in breathing while taking TIGLUTIK.
- If you miss or skip a dose of TIGLUTIK, do not take any extra dose to make up for those you missed, but take your prescribed dose at the next regularly scheduled time.
- The most common side effects of TIGLUTIK that occurred during medical studies were numbness/tingling around the mouth, weakness, nausea, decreased lung function, high blood pressure, and abdominal pain. If any side effects become troublesome, contact your doctor.
- Be sure to tell your doctor and pharmacist about all other health conditions you have and all medicines you are taking, including nonprescription products and vitamins. If you have questions, please talk to your doctor.

You are encouraged to report negative side effects of prescription drugs to the FDA.
